Schroon Lake Central School Code of Conduct

I. INTRODUCTION

The Schroon Lake Central School Board of Education ("board") is committed to providing a safe and orderly school environment where students may receive and district personnel may deliver quality educational services without disruption or interference. Responsible behavior by students, teachers, other district personnel, parents and visitors is essential to achieving this goal. Furthermore, a positive attitude is one of the most important attributes each student can bring to class every day. Students with positive attitudes will find school to be exciting, challenging, and rewarding.

The District believes that a child best succeeds when there is a strong partnership between home and school. This partnership thrives on open communication between parents and the school, parental involvement in their child's education, and parental responsibility for all aspects of their child's education.

Parents can become partners in their child's education by:

1. Becoming familiar with their child's school activities and academic program, including special programs offered by the district.
2. Discussing with counselors, teachers and the superintendent the options and opportunities available to their child.
3. Monitoring their child's academic progress and contact teachers when necessary.
4. Attending scheduled teacher/school conferences.
5. Monitoring their child's attendance at school. Regular school attendance is important if a child is to achieve his/her full potential. Parents are urged to make an extra effort to ensure their child establishes a regular attendance pattern.

Learning does not end when the school day is over. Schroon Lake Central School encourages parents to set aside time for reading, informal learning activities, and assisting their child with homework assignments.

Parents can also become involved in their child's education on a broader scale by joining the Parent Teacher Student Organization. The PTSO is the strongest link between home and school. By joining the PTSO, parents will become partners in advancing the educational goals of the school district while enhancing the welfare of their child.

Parents and students are encouraged to visit the Schroon Lake Central School District website at <http://www.schroonschool.org> for information relating to the District and student related activities.

Parents with disabilities will be afforded an equal opportunity to participate in the services,

programs and activities of the district, particularly those which are designed for parental involvement and directly related to their child's academic and/or disciplinary progress (e.g., parent/teacher conferences, and/or meetings with other school personnel).

Request for accommodations should be directed to the Superintendent at least 10 business days prior to the scheduled activity or program. Such requests should include descriptions of the parent's needs and the specific accommodation they are requesting.

The Board of Education

The Board of Education consists of District residents who are unpaid officials elected by the voters of this school district. They take formal legal action and assume the major responsibilities for the operations of the schools. They are average citizens who have been elected to take on the additional tasks of Board membership in order to provide leadership for the welfare of district students.

The members of the SLCS Board of Education are:

President	Robert Claus
Vice President	Tina Armstrong
Member	Kevin Kelly, Sr.
Member	Eric Welch
Member	Susan Repko

In order to perform its duties in an open and public manner, and in accordance with state law, the SLCS Board of Education holds regular business meetings on the fourth Thursday of each month in the SLCS auditorium at 7:00 p.m. Parents, students and other members of the community are encouraged to attend and demonstrate their interest in the education of district students.

Behavioral Expectations

The district has a long-standing set of expectations for conduct on school property and at school functions. These expectations are based on the principles of civility, mutual respect, citizenship, character, tolerance, honesty and integrity. The board recognizes the need to clearly define these expectations for acceptable conduct on school property, to identify the possible consequences of unacceptable conduct, and to ensure that when discipline is necessary it is administered promptly and fairly. To this end, the board adopts this code of conduct ("code"). To facilitate the day-to-day use of the district code of conduct, a "Community Expectations" flyer has been developed as a supplement to the code.

Unless otherwise indicated, this code applies to all students, school personnel, parents and visitors when on school property or attending a school function.

Statement of Non-discrimination

The Schroon Lake Central School District does not discriminate on the basis of race, creed, color, sex, national origin, religion, age, economic status, marital status, sexual orientation, or disability in the District's educational programs. For a comprehensive review of the District's non-discrimination policy and practices, readers are referred to Policy 0100 of the Schroon Lake Central School District Policy Manual

District staff who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the code of conduct to their supervisor, who shall in turn impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

Any weapon, alcohol or illegal substance found shall be confiscated immediately, if possible, followed by notification to the parent of the student involved and the appropriate disciplinary sanction if warranted, which may include permanent suspension and referral for prosecution.

The superintendent may notify the appropriate local law enforcement agency of those code violations that constitute a crime and substantially affect the order or security of a school as soon as practical, but in no event later than the close of business the day he or she learns of the violation. The notification must identify the student and explain the conduct that violated the code of conduct and constituted a crime.

Reporting Discrimination, Harassment and Bullying

- School employees who witness harassment, bullying, and/or discrimination or receive an oral or written report of such acts shall promptly orally notify the principal, superintendent, or their designee no later than one school day after such employee witnesses or receives a report of such acts, and shall also file a written report with the principal, superintendent, or their designee no later than two school days after making

an oral report.

- The principal, superintendent or the principal's or superintendent's designee shall lead or supervise the thorough investigation of all reports of harassment, bullying and/or discrimination, and ensure that such investigation is completed promptly after receipt of any written reports.
- When an investigation verifies a material incident of harassment, bullying, and/or discrimination, the superintendent, principal, or designee shall take prompt action, reasonably calculated to end the harassment, bullying, and/or discrimination, eliminate any hostile environment, create a more

positive school culture and climate, prevent recurrence of the behavior, and ensure the safety of the student or students against whom such behavior was directed.

- The principal, superintendent, or their designee shall notify promptly the appropriate local law enforcement agency when it is believed that any harassment, bullying or discrimination constitutes criminal conduct
- The principal shall provide a regular report, at least once during each school year, on data and trends related to harassment, bullying, and/or discrimination to the superintendent

Retaliation Prohibited

Any act of retaliation against any person who reports or has filed a complaint of harassing or discriminatory behavior, is strictly prohibited and illegal, and therefore subject to disciplinary action. Likewise, retaliation against any person who has testified, assisted, or participated in any manner in an investigation, proceeding, or hearing of a harassment or discrimination complaint is prohibited. For purposes of this policy, retaliation includes but is not limited to: verbal or physical threats, intimidation, ridicule, bribes, destruction of property, spreading rumors, stalking, harassing phone calls, and any other form of harassment. Any person who retaliates is subject to immediate disciplinary action, up to and including suspension or termination, as applicable.

Where incidents involve violations of civil rights, the victim and the alleged perpetrator have the right to be represented by a person of their choice, at their own expense, during investigations and hearings. In addition, victims have the right to register complaints with the U.S. Department of Education's Office for Civil Rights.

Employee victims also have the right to register complaints with the Federal Equal Employment Opportunity Commission and the New York State Division of Human Rights. Nothing in these regulations shall be construed to limit the right of the complainant to file a lawsuit in either state or federal court.

IX. DISCIPLINARY PENALTIES, PROCEDURES & REFERRALS

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that is as fair and impartial. School personnel who interact with students are expected to use disciplinary action when necessary and to place emphasis on the students' ability to grow in self-discipline.

Disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

1. The student's age.
2. The nature of the offense and the circumstances which led to the offense.
3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Information from parents, teachers and/or others, as appropriate
6. Other extenuating circumstances.

As a general rule, discipline will be progressive. This means that a student's first violation will

usually merit a lighter penalty than subsequent violations. If the conduct of a student is related to a disability or suspected disability the discipline, if warranted, shall be administered consistent with the separate

requirements of this code of conduct for disciplining students with a disability or presumed to have a disability. A student identified as having a disability shall not be disciplined for behavior related to his/her disability.

Remedial Responses

The Dignity Act emphasizes the creation and maintenance of a positive learning environment for all students. In addition, the amended Dignity Act requires the development of measured, balanced, progressive, and age-appropriate responses to discrimination, harassment, and bullying of students by students and/or employees. Remedial responses should place the focus of discipline on discerning and correcting the reasons why discrimination, harassment, and bullying occurred. The remedial responses should also be designed to correct the problem behavior, prevent another occurrence of the behavior, and protect the target of the act.

Appropriate remedial measures may include, but are not limited to: peer support groups; assignment of an adult mentor at school that the student checks in with at the beginning and end of each school day; corrective instruction that reemphasizes behavioral expectations or other relevant learning or service experience; engagement of student in a reflective activity, such as writing an essay about the misbehavior and its impact on others and how the student might handle the situation differently in the future and/or make amends to those who have been harmed; supportive intervention and/or mediation where constructive conflict resolution is modeled; behavioral assessment or evaluation; behavioral management plans or behavior contracts, with benchmarks that are closely monitored; student counseling and parent conferences that focus on involving persons in parental relation in discipline issues.

Penalties

Students who are found to have violated the district's code of conduct may be subject to the following penalties, alone or in combination, consistent with the student's right to due process.

1. Oral warning
2. Pass Restriction
3. Written warning
4. Written notification to parent
5. Detention
6. Suspension from transportation
7. Suspension from athletics (athletes and/or spectators)
8. Suspension from social or extracurricular activities
9. Suspension of other privileges
10. Removal from classroom by teacher
11. Short-term (five days or less) suspension from school
12. Long-term (more than five days) suspension from school
13. Permanent suspension from school
14. Loss of Driving Privileges

Procedures

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

Students who are to be given penalties other than an oral warning, written warning or written notification to their parents are entitled to additional rights before the penalty is imposed. These additional rights are explained below.

1. Detention

School staff members may use after school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate. Detention will be imposed as a penalty only after the student's parent has been notified to confirm that there is no parental objection to the penalty and the student has appropriate transportation home following detention. Served within 5 school days of infraction.

2. Suspension from transportation

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the administrator's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the superintendent or his designee. In such cases, the student's parent will become responsible for seeing that his or her child gets to and from school safely. Should the suspension from transportation amount to a suspension from attendance, the district will make appropriate arrangements to provide for the student's education. A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the superintendent or his designee to discuss the conduct and the penalty involved.

3. Suspension from athletic participation, extra-curricular activities and other privileges.

A student subjected to a suspension from athletic participation, extra-curricular activities or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the suspension to discuss the conduct and the penalty involved

4. In-school suspension

The board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the board authorizes the superintendent to place students who would otherwise be suspended from school as the result of a code of conduct violation in "in-school suspension." The in-school suspension teacher will be a certified teacher. A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214.

However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the in-school suspension to discuss the conduct and the penalty involved.

5. Teacher disciplinary removal of disruptive students

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom

management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and

self-control in an alternative setting. Such practices may include, but are not limited to: (1) short-term "time out" in an elementary classroom or in an administrator's office; (2) sending a student into the hallway briefly; (3) sending a student to the superintendent's office for the remainder of the class time only; or (4) sending a student to a counselor or other district staff member for counseling. Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of this code.

On occasion, a student's behavior may become disruptive. For purposes of this code of conduct, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom behavior rules. A classroom teacher may remove a disruptive student from class for up to five days. The removal from class applies to the class of the removing teacher only. If the disruptive student does not pose a danger or on-going threat of disruption to the academic process, the teacher must provide the student with an explanation for why he or she is being removed and an opportunity to explain his or her version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class.

If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 24 hours (or the next school day if 24 hours falls on non-school day.) The teacher must complete a district-established disciplinary removal form and meet with the superintendent as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal form. If the superintendent is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the superintendent prior to the beginning of classes on the next school day.

Within 24 hours after the student's removal (or the next school day if 24 hours falls on a non-school day,) the superintendent must notify the student's parents, in writing, that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the superintendent or the superintendent's designee to discuss the reasons for the removal.

The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone numbers for the purpose of contacting parents. The superintendent may require the teacher who ordered the removal to attend the informal conference. If at the informal meeting the student denies the charges, the superintendent must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within 48 hours of the student's removal (or the next school day if the 48 hours occurs on a non-school day.) The timing of the informal meeting may be extended by mutual agreement of the parent and superintendent. The superintendent may overturn the removal of the student from class if the

superintendent finds any one of the following:

1. The charges against the student are not supported by substantial evidence.

2. The removal is otherwise in violation of law, including the district's code of conduct.
3. The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed. The superintendent may overturn a removal at any point between receiving the referral form issued by the teacher and the close of business on the day following the 48 hour period for the informal conference, if a conference is requested. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the superintendent makes a final determination, or the period of removal expires, whichever is less. Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom. Each teacher must keep a complete log (on a district provided form) for all cases of removal of students from his or her class. The superintendent must keep a log of all removals of students from class. Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the superintendent that the removal will not violate the student's rights under state or federal law or regulation.

6. Suspension from school

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others. The board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent. Any staff member may recommend to the superintendent that a student be suspended. All staff members must immediately report and refer a violent student to the superintendent for a violation of the code of conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension. The superintendent, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

A. Short-term (5 days or less) suspension from school

When the superintendent (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension.

The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents. Where possible, notice should also be provided by telephone if the

school has been provided with a telephone numbers for the purpose of contacting the parents. The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the superintendent Both the notice and informal conference shall be in the dominant

language or mode of communication used by the parents.

At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the superintendent may establish. The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the superintendent shall promptly advise the parents in writing of his or her decision. The superintendent shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the superintendent's decision, they must file a written appeal to the board of education with the district clerk within 10 business days of the date of the superintendents' decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

B. Long-term (more than 5 days) suspension from school

When the superintendent determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf. The superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof. An appeal of the decision of the superintendent may be made to the board that will make its decision based solely upon the record before it. All appeals to the board must be in writing and submitted to the district clerk within 10 business days of the date of the superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The board may adopt in whole or in part the decision of the superintendent. Final decisions of the board may be appealed to the Commissioner within 30 days of the decision.

C. Permanent suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function.

D. Minimum Periods of Suspension

1. Students who bring a weapon to school

Any student found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The superintendent has the authority to modify the one-year suspension on a case-by-case basis by deciding whether to modify the penalty, the superintendent may consider the following:

- a. The student's age.
- b. The student's grade in school.
- c. The student's prior disciplinary record.
- d. The superintendent's belief that other forms of discipline may be more effective.
- e. Input from parents, teachers and/or others.
- f. Other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

2. Students who commit violent acts other than bringing a weapon to school

Any student who is found to have committed a violent act, other than bringing a weapon onto school property, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon. A student with a disability may be suspended only in accordance with the requirements of state and federal law.

3. Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interferes with the teacher's authority over the classroom

Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom will be suspended from school for at least five days. For purposes of this code of conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law §3214(3-a) and this code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in

modifying a one-year suspension for possessing a weapon.

E. Referrals

1. Counseling

The Guidance Office shall handle all referrals of students to counseling.

2. PINS Petitions

The district may file a PINS (person in need of supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- b. Engaging in an ongoing or continual course of conduct which makes (he student ungovernable, or habitually disobedient and beyond the lawful control of the school.
- c. Knowingly and unlawfully possesses marijuana in violation of Penal Law § 221.05.
A single violation of § 221.05 will be a sufficient basis for filing a PINS petition.

3. Juvenile Delinquents and Juvenile Offenders

The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court*

- a. Any student under the age of 16 who is found to have brought a weapon to school,
or
- b. Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20 (42). The superintendent *is* required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

X. ALTERNATE INSTRUCTION

When a student of any age is removed from class by a teacher or a student of compulsory attendance age is suspended from school pursuant to Education Law §3214, the district will take immediate steps to provide alternative means of instruction for the student.

XI. DISCIPLINE OF STUDENTS WITH DISABILITIES

The Board of Education recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive behavior. The Board also recognizes that students with disabilities are entitled to certain procedural protections pursuant to the state and federal law and regulations if a suspension or removal involves a disciplinary change of placement

This Code of Conduct affords students with disabilities subject to disciplinary action no greater or lesser rights and protections than those expressly afforded them by applicable federal and state law and regulations.

Authorized Suspensions or Removals of Students with Disabilities

For Purposes of this section of the Code of Conduct, the Following Definitions Apply:

Suspension means a suspension pursuant to Education Law §3214.

Removal means a removal for disciplinary reasons from the student's current educational placement other than a suspension to an interim alternative educational setting (IAES).

IAES means a temporary educational placement, other than the student's current placement at the time the behavior precipitating the IAES placement occurred. A student who is placed in an IAES shall continue to receive educational services so as to enable the student to continue to participate in the general education curriculum, although in another setting, to progress toward meeting the goals set out in the student's IEP; and to receive, where appropriate, a functional behavioral assessment and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not recur.

Weapon means the same as "dangerous weapon" under 18 U.S.C. §930(g)(w) which includes "a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except... [for] a pocket knife with a blade of less than 2 1/2 inches in length." The term weapon shall also mean a firearm as defined in 18 USC §921 for purposes of the Gun-Free Schools Act It also means any other gun, BB gun, pistol, revolver, shotgun, rifle, machine gun, disguised gun, dagger, dirk, razor, stiletto, switchblade knife, gravity knife, brass knuckles, sling shot, metal knuckle knife, box cutter, cane sword, electronic dart gun, Rung Fu star, electronic stun gun, pepper spray or other noxious spray, explosive or incendiary bomb, or other device, instrument, material or substance that can cause physical injury or death when used to cause physical injury or death.

Controlled Substance means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.

Illegal Drug means a controlled substance except for those legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.

Serious Bodily Injury means the same as "serious bodily injury" under 18 U.S.C. § 1365(h) (3) which includes "a substantial risk of death; extreme physical pain; protracted and obvious disfigurement; or protracted loss or impairment of the function of a bodily member, organ or mental faculty."

Student Presumed to Have a Disability for Discipline Purposes means a student who the school district is deemed to have knowledge was a student with a disability *before* the behavior that precipitated disciplinary action because, prior to the behavior occurred:

1. The student's parent expressed concern in writing to administrative or supervisory personnel of the appropriate educational agency or to the student's teacher that the student is in need of special education (exception: may be oral if parent cannot write or has a disability that prevents a written statement);
2. The parent requested an evaluation of the student to determine whether he/she is a child/preschool child with a disability; or
3. The student's teacher or other school district personnel expressed specific concerns about a pattern of behavior demonstrated by the student directly to the director of special education or

to other school district supervisory personnel.

A. Suspension of Students with Disabilities up to 10 Days in the Course of a School Year

School personnel may order the suspension or removal of students with a disability from their current educational placement as follows:

1. The Superintendent may direct the placement of a student with a disability to an IAES, another setting, or suspension for a period not to exceed five consecutive school days to the same extent applicable to nondisabled students. Upon any suspension and/or request for a superintendent's hearing regarding a student with disabilities, the superintendent shall notify the CSE chairperson immediately.
2. The Superintendent may order the placement of a student with a disability into IAES, another setting, or suspension not to exceed a total of 10 school days to the same extent applicable to non-disabled students.

B. Suspensions of Students with Disabilities over 10 Days in the Course of a School Year

No student with disabilities shall be suspended for more than 10 school days, cumulatively or consecutively, over the course of a school year without provisions for the continuation of an appropriate public education ("FAPE").

Prior to any suspension by the superintendent which cumulatively is more than 10 school days in the course of a school year, the superintendent shall, in consultation with a Special Education Teacher and the CSE chairperson, determine whether the imposition of further suspension constitutes a change in placement. To determine whether a cumulative suspension of more than ten days constitutes a pattern of suspensions which constitute a change of placement, the superintendent, in consultation with the Special Education Director or his/her designee, shall consider the following:

1. Whether the student's behavior is substantially similar to the student's behavior in the previous incidents that resulted in the series of removals over ten days during the course of the school year;
 1. The length of each suspension or removal;
 2. The total amount of time the student is removed, and
 3. The proximity of the suspensions or removals to one another.

Except in cases involving weapons, drugs, or serious bodily injury, as defined herein, if the superintendent determines that a proposed additional short term suspension that brings the total number of days of suspension over ten school days during the course of a school year constitutes a change in placement, the superintendent shall refer the student to the Committee on Special Education to determine whether the student's behavior is a manifestation of the student's disability prior to imposing any further suspension.

If the superintendent, after consultation with the CSE chairperson, determines that any proposed short term suspension that brings the total number of days a student with a disability has been suspended to a total of more than ten days in the course of a school year, determines that the suspension does not constitute a change of placement, the superintendent shall, in consultation with at least one of the student's teachers and the CSE chairperson determine the extent to which services are needed to enable the student to continue to participate in the

general education curriculum, although in another setting, and to progress in meeting the goals on the student's IEP and shall arrange for such services.

The Superintendent may order additional removals of more than 10 consecutive School days in the same school year for separate incidents of misconduct, in accordance with the following procedures:

1. The Superintendent shall convene a hearing in accordance with Education Law §3214 which shall include a guilt and penalty phase. Following the fact finding phase of the hearing upon a finding of guilt, the matter shall be referred to the Manifestation Team.
2. The Manifestation Team shall determine whether the student's behavior leading to the discipline was a manifestation of the student's disability.
3. If the Manifestation Team determines that the student's behavior was not a manifestation of the Student's disability, the hearing shall proceed to the Penalty Phase, where the Superintendent may order the removal of a student with a disability from his current educational program for the same amount of time a student without a disability would be subject to discipline for the same offense.
4. For any period of suspension that constitutes a disciplinary change of placement, the student shall be referred to the Committee on Special Education to recommend an IAES which shall be available to the student during such periods of suspension.
5. Exception for drugs, serious bodily injury or possession or sale, solicitation of illegal drugs and controlled substances and upon the order of a hearing officer.

The Superintendent may remove a student with a disability for up to 45 school days or longer if extended by a hearing officer, where the Superintendent, or his designee, finds, after a hearing convened pursuant to Education Law §3214, that the student possessed a weapon in school or at a school function, knowingly possessed an illegal drug or controlled substance, was involved in its sale or solicitation, or caused someone serious bodily injury.

Expedited Hearings on Request of the District

If the Superintendent concludes upon a finding of guilt that maintaining the student in his or her current educational placement is likely to cause injury to the student/others, the Superintendent shall refer the matter to the Committee on Special Education to determine whether any additional steps can be reasonably taken to minimize the potential for harm and to conduct a manifestation determination. If the Committee is unable to identify any additional supports or services to eliminate the risk, and the Committee is unable to reach a mutually agreeable alternative plan with the Parent(s) of the student to continue the provision of FAPE in another location, the CSE chairperson, shall, after consultation with the Superintendent, initiate an expedited hearing as defined in Commissioner's regulations¹ or petition a court to seek permission to invoke a unilateral removal of the student to address the risk of harm that the student's continued attendance in his or her present educational placement presents to the student or to others.

All references to Commissioner's regulations herein refer to 8 NYCRR 201 unless otherwise indicated.

In the event the 45 school day IAES placement is expiring, the student is still considered at risk, and the parents and district have not reached a mutually agreeable alternative for the student's placement, the CSE chairperson, upon consultation with the Superintendent, may initiate another expedited impartial hearing or seek the courts assistance to obtain an order to

extend the student's IAES placement to the extent deemed necessary to provide a safe school environment

Special Rules Regarding the Suspension or Removal of Students with Disabilities

The District's Committee on Special Education shall:

Conduct functional behavioral assessments to determine why a student engages in a particular behavior, and develop or review behavioral intervention plans whenever the district is first suspending or removing a student with a disability for more than ten school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs or controlled substances.

Subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from his/her current educational placement for more than ten school days in a school year is subject to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE shall review the behavioral intervention plan and its implementation to determine if modifications are necessary.

If one or more members of the CSE believe that modifications are needed, the school district shall convene a meeting of the CSE to modify such plan and its implementation to the extent the committee determines necessary.

Manifestation Determination

A review of the relationship between the student's disability and the behavior subject to disciplinary action to determine if the conduct is a manifestation of the disability must be made by a manifestation team immediately, if possible, but in no case later than ten school days after a decision is made:

1. By the superintendent to change the placement to an interim alternative educational setting (IAES)
2. By an Impartial Hearing Officer (IHO) to place the student in an IAES
3. By the Board of Education, district (BOCES) superintendent, superintendent, or building principal to impose a suspension that constitutes a disciplinary change of placement

The manifestation team shall include a representative of the district knowledgeable about the student and the interpretation of information about child behavior, the parent and relevant members of the CSE as determined by the parent and the district. The parent must receive written notice prior to the meeting to ensure that the parent has an opportunity to attend. This notice must include the purpose of the meeting, the names of those expected to attend and notice of the parent's right to have relevant members of the CSE participate at the parent's request.

The manifestation team shall review all relevant information in the student's file including the student's IEP, any teacher observations, and any relevant information provided by the parents to determine if the conduct in question was caused by or had a direct and substantial relationship to the student's disability, or the conduct in question was the direct result of the district's failure to implement the IEP.

Finding of Manifestation

If it is determined, as a result of this review, that the student's behavior is a manifestation of his/her disability, the CSE shall conduct a functional behavioral assessment and implement or modify a

behavioral intervention plan. Unless the change in placement was due to behavior involving serious bodily injury, weapons, illegal drugs or controlled substances, the student must be returned to the placement as part of the modification of the behavioral intervention plan.

No Finding of Manifestation

If it is determined that the student's behavior is not a manifestation of his/her disability, the relevant disciplinary procedures applicable to students without disabilities may be applied to the student in the same manner in which they would be applied to students without disabilities, subject to the right to the parent/person in parental relation to request a hearing objecting to the manifestation determination and the district's obligation to provide a free, appropriate public education to such student.

Provision of Services Regardless of the Manifestation Determination

Regardless of the manifestation determination for subsequent suspensions or removals for ten consecutive school days or less that in the aggregate total more than ten school days in a school year but do not constitute a disciplinary change of placement, and for suspensions or other disciplinary removals in excess of ten school days in a school year which do not constitute a disciplinary change.

The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations in accordance with federal and state statutory and regulatory criteria, the school district is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the district is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.

The superintendent, building principal or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.

A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the district had knowledge the student was a student with a disability, the district either:

Conducted an individual evaluation and determined that the student is not a student with a disability; or

Determined that an evaluation was not necessary and provided notice to the parents of such determination, in the manner required by applicable law and regulations.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made while such non-disabled student is

subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the

district, which can include suspension.

The district shall provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his/her current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement

The procedural safeguards notice prescribed by the Commissioner shall accompany the notice of disciplinary removal.

The parents of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.

Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five school days shall be divided into a guilt phase and a penalty phase in accordance with the procedures set form in the Commissioner's regulations incorporated into this code.

The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more man ten consecutive days or fin: a period mat would result in a disciplinary change in placement, unless the Committee on Special Education has determined that the behavior is not a manifestation of the student's disability.

During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services as required by the Commissioner's regulations incorporated into this code.

Rules Regarding the Suspension or Removal of Students with Disabilities Involving a Change of Placement

A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:

1. For more than ten consecutive days; or
2. For a period often consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than ten school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.

School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal.

However, the district may impose a suspension or removal, which would otherwise result in a

disciplinary change in placement, based on a pattern of suspensions or removals if the CSE has determined that the behavior was not a manifestation of the student's disability, or the student is

placed in an IAES for behavior involving weapons, illegal drugs or controlled substances.

Upon referral of a student with a disability to the CSE who is facing a disciplinary change of placement, the District's Committee on Special Education shall immediately contact the parent by telephone, where possible, and upon written notice shall schedule an expedited meeting of the Manifestation Team and the CSE to conduct and review the following:

1. A Manifestation Determination by the Manifestation Team which shall include a representative of the district knowledgeable about the student and the interpretation of information about child behavior, the parent and relevant members of the committee as determined by the parent and the district.
2. If the Manifestation Team determines that the student's behavior leading to the suspension is not a manifestation of the student's disability or regardless of the manifestation determination, the superintendent has ordered the removal of the student for up to 45 school days for possession, use, sale or solicitation of illegal drugs or controlled substances, for causing serious bodily injury or for the possession of a weapon, the Committee shall convene to arrange for the student's placement in an IAES for the period of the student's suspension or removal as determined by the superintendent
3. Notwithstanding any provision to the contrary, where the Committee finds deficiencies in the IEP, the committee shall recommend changes to the student's program, and where the Committee determines that the placement of the student is not appropriate, the District shall work with the parent to conduct further evaluations to the extent necessary and to recommend and implement a change of placement, as soon as possible.
4. A functional behavioral assessment and a behavioral intervention plan, where applicable. The CSE shall arrange for or review a FBA and BIP previously developed, to determine if modifications are necessary, whenever the Manifestation Team concludes that the student's behavior leading to the disciplinary action is a manifestation of the student's disability.

Expedited Hearings Challenging a Removal of Disciplinary Change of Placement of a Student with a Disability

When a parent requests an impartial hearing to challenge any aspect of a disciplinary removal or suspension, the District shall arrange for an expedited hearing and the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the time of removal whichever occurs first, unless the parents and district agree otherwise.

Where the parent or district request an expedited hearing to address a disciplinary removal or suspension, the District shall arrange for a resolution session within seven days of receipt of a complaint and the hearing shall proceed within 15 days of receipt of such request. The hearing shall occur within 20 school days of the date of receipt of a request for such hearing and the hearing officer shall issue a ruling within 10 days after completion of the hearing. No

extensions of these timelines are permitted.

Students Presumed to be Disabled and Expedited Evaluations

The superintendent, in consultation with the CSE chairperson, shall determine whether a student subject to discipline is a child presumed to have a disability as defined above, upon a claim by the Parent or school district personnel. If the superintendent in consultation with the CSE chairperson concludes that such student is presumed to be disabled, such student shall be afforded the same protections as a student with a disability and shall receive an expedited evaluation, upon receipt of parental consent, to determine whether the student is a child with a disability.

If the superintendent determines that a student subject to a suspension is not a student presumed to have a disability as defined herein, the student shall be subject to the same disciplinary measures as a non-disabled student who engaged in comparable behaviors.

If a person, properly authorized, initiates a referral of a student to the Committee on Special Education for an individual evaluation after the behavior which led to the suspension occurred, the child shall be entitled to an expedited evaluation with the consent of the parent, except where:

The Committee determines, upon evaluation and review that the student is not disabled; the parents deny consent to enable the District to conduct an evaluation; or The parent has refused consent for special education services.

An expedited evaluation under this policy shall be completed no later than IS school days after receipt of the parent's consent for evaluation. A determination of eligibility shall be made at a meeting of the appropriate committee, no later than 5 days after the completion of the expedited evaluation.

Students Placement Pending Expedited Evaluation

Until the committee completes the expedited evaluation and the CSE has convened, such student shall be subject to the same disciplinary measures as a non-disabled student who engaged in comparable behaviors.

Notice of Proposed Disciplinary Change of Placement or Removal

The District shall provide parent of a student with a disability with written notice of a disciplinary removal no later than the date on which a decision is made to change the student's placement to an IAES or to invoke a disciplinary change of placement

Procedural Safeguards

Nothing in this policy governing the extra procedural safeguards applicable to students with disability, shall excuse compliance with the procedural safeguards governing the suspension of a student

Referral to Law Enforcement and Judicial Authorities

In accordance with the provisions of the IDEA its implementing regulations, state law and regulation and District policy, the District shall report alleged crimes committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement

The Superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported in a manner consistent with state and federal law governing confidentiality.

XII. CORPORAL PUNISHMENT

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any district employee is strictly forbidden.

However, in situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, reasonable physical force may be used to:

1. Protect oneself another student, teacher or any person from physical injury.
2. Protect the property of the school or others.
3. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school district functions, powers and duties, if that student has refused to refrain from further disruptive acts. The district will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's regulations.

XIII. STUDENT SEARCHES AND INTERROGATIONS

The board of education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the district code of conduct. Students are not entitled to any sort of "Miranda"-type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student. However, school officials will tell all students why they are being questioned.

In addition, the board authorizes the superintendent, the school nurse and district security officials to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the district code of conduct.

An authorized school official may search a student or the student's belongings that is minimally intrusive, such as examining the contents of a book bag with reasonable suspicion, as long as the authorized school official has a legitimate reason for the very limited search.

An authorized school official may search a student, their vehicle or the student's belongings based upon information received from a reliable informant. Individuals, other than the district employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate. Before searching a student or the student's belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the district code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought. Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

A. Student Lockers, Desks and other School Storage Places

The rules in this code of conduct regarding searches of students and their belongings do not apply to student lockers, desks and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent

B. Documentation of Searches

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search:

1. Name, age and grade of student searched.
2. Reasons for the search.
3. Name of any informants.
4. Purpose of search (that is, what item(s) were being sought).
5. Type and scope of search.
6. Person conducting search and his or her title and position.
7. Witnesses, if any, to the search.
8. Time and location of search.
9. Results of search (that is, what items(s) were found).
10. Disposition of items found.
11. Time, manner and results of parental notification.

The superintendent or his designee shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student. The superintendent or his or her designee shall clearly label each item taken from the student and retain control of the item(s), until the items is turned over to the police. The superintendent or his or her designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

Students are reminded that Students and/or parents are responsible for the cost of locker damage and locks that are not returned.

C. Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function; or
3. Been invited by school officials.

Before police officials are permitted to question or search any student, the superintendent or his or her designee shall first try to notify the student's parent to give the parent the

opportunity to be present during the police questioning or search. If the student's parent cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted. The superintendent or designee will also be present during any police questioning or search of a student

on school property or at a school function. Notably, this requirement does not apply to a School Resource Officer acting to assist the school administration in any school investigation. Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.

D. Child Protective Services Investigations

Consistent with the district's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will cooperate with local child protective services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations. All requests by child protective services to interview a student on school property shall be made directly to superintendent or his or her designee. The superintendent or his or her designee shall set the time and place of the interview. The superintendent or designee shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations. If the nature of the allegations is such that it may be necessary for the student to remove any of his or her clothing in order for the child protective services worker to verify the allegations, the school nurse or other district medical personnel must be present during that portion of the interview: No student may be required to remove his or her clothing in front of a child protective services worker or school district official of the opposite sex.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if not he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent

XIV. STUDENT ISSUES AND COMMUNICATION

A. Parent Conferences

Parent-teacher conferences are an important element in reporting student progress to parents. Parents will be notified in advance of the available dates and times so a convenient appointment may be arranged. Parents should feel free to request a conference with their child's teacher at any time.

Parents may initiate a conference by calling the school office and making an appointment with the teacher, counselor or Superintendent. When a parent requests a conference with a teacher, the teacher will make every effort to arrange a mutually convenient time. Conferences shall be planned around the teacher's schedule so as not to interfere with class time. If a parent cannot attend a scheduled conference, he/she should notify the school as far in advance as possible so that another conference time may be arranged.

B. Student Progress Reports to Parents

Schroon Lake Central Schools formal reporting system includes report cards and forms developed by the professional staff and issued periodically. Scheduled conferences between parents and teachers, and interim reports will be issued as needed or required. Parents are urged to visit the school and meet with the guidance counselor and teachers whenever necessary.

C. Student Homework

Homework provides excellent opportunities for developing good study habits, providing for individual differences and abilities, and encouraging self-initiative on the part of the student. Parents can assist their children with homework by providing a study area free of distractions and with good lighting, asking questions about the content of the student homework, giving requested assistance, but letting the student do his or her own work, avoiding undue pressure and helping create a "homework habit" at the same time each night. Parents may request homework assignments for students who are absent from school for several days. Please call the school office at least 24 hours prior to the desired pick up time.

D. Student Illness

The following reasons for student absences from schools are recognized as valid and excused by the Board of Education:

1. Personal illness
2. Illness or death in the family
3. Impassable roads
4. Religious observance
5. Attendance at a medical appointment
6. Quarantine
7. Required court appointment
8. School approved obligation such as field trips or band lessons
9. College visits, if approved in advance by the guidance office

Any other absence is considered unexcused. Each absence must be accounted for. It is the parent's responsibility to notify the school nurse on the morning of the absence. It is essential that parents also provide a written excuse for each absence. Such excuse should contain the reason and date of absence, and be presented to the homeroom teacher as soon as a student returns to classes. **FAILURE TO PROVIDE A WRITTEN VERIFICATION OF AN EXCUSED ABSENCE WITHIN FIVE DAYS OF THAT ABSENCE WILL RENDER THE ABSENCE UNEXCUSED, ABSENT EXTENUATING CIRCUMSTANCES.** Tardies shall only be excused for reasons set forth above.

E. Student Dismissal

First dismissal is 3:05 P.M. (3:00 grades K-6). Students are to leave the building unless they have been assigned detention or are involved with another school sponsored activity including extra help with teachers. The second dismissal is 4:00 P.M.

In order to ensure students' safety, the Superintendent maintains a list of emergency contacts and individuals who are authorized to obtain the early release of students in attendance at the school. No student may be released to the custody of any individual who is not the parent or guardian of the student, unless the individual's name appears upon the list.

Parents or guardians may submit a list of individuals authorized to obtain the release of their

children from school at the time of the child's enrollment. A parent or guardian may amend a list submitted pursuant to this regulation at any time, in writing, with the signature of the parent or guardian. Certified copies of court orders or divorce decrees provided by the custodial parent, which restrict a parent's ability to seek the release of his or her child, shall be maintained in the district office.

If an individual seeks the release from school of a student, he/she must report to the Nurse's office and present satisfactory identification.

Early dismissal excuses for emergency, medical, or other reasons should be requested in writing by the parent. Students in grades K-6 must be signed out and picked up in the Nurse's office by the releasing adult. Students in grades 7-12 must sign out in the Nurse's office before leaving. Please provide written notices of dismissal (via your child) or change of busses by 8:11 A.M. Calls to the office to release children or change busses should be rare—AND only in cases of unforeseen emergencies.

In the event of an emergency, the superintendent may release a student to some individual not appearing on the approved list only if the parent has been contacted by the Superintendent and has approved the release.

F. Extracurricular Activities

Schroon Lake Central School offers a variety of co-curricular and extra-curricular activities for students. Participation in such activities provides students with experience in building social relationships, developing interests in an academic area, and gaining an understanding of the responsibilities of good citizenship.

Members of school clubs and teams are public representatives of the school clubs and teams are public representatives of the school district. Students who participate in extracurricular activities are expected to conform to standards that meet or exceed those in the school district code of conduct. / *Academic Standards*

In order to remain eligible to participate in extracurricular activities, students must not have a grade average below 65 in more than one subject. A student who has more than one grade below 65 will be placed on probation for a period of approximately 12 school days as scheduled below.

Probation is a warning that students need to improve their grades. During the probationary period students may still fully participate in all extracurricular activities. At the next report date, probationary students with:

1. No more than one grade average below 65 is removed from the list
2. More than one grade average below 65 is moved to the ineligible list

Ineligible students have had more than one average below 65 for two report dates. Students on the ineligible list may not participate in any extracurricular activities except practice and rehearsal. At the next report date ineligible students with:

1. No more than one grade average below 65 is moved to the probation list
2. More than one grade average below 65 is moved to the restricted list

Restricted students are those who have had more than one average below 65 for three report dates. Students on the restricted list may not participate in any extracurricular activities including practice and rehearsal. At the next report date, restricted students with

1. No more than one grade average below 65 are moved to the probationary list
1. More than one grade average below 65 remain on the restricted list

Attendance Standards

Students who are absent, dismissed early, or suspended from school on the day of an after school activity may not participate in that activity unless prior arrangements (including written verifications) have been provided to the Superintendent

Behavior Standards

1. The student agrees to abide by the district's Student Code of Conduct and understands that a violation of the code may result in suspension from extracurricular and co-curricular activities in addition to any penalty given by the district.
2. The student agrees to refrain from the use, possession or sale of alcohol, drugs and/or tobacco products, on or off campus, during the time that he/she participates in the above named activities. Confirmed violations will result in loss of extracurricular and co-curricular privileges.

Participation/Training Standards

Certain activities require a minimum level of participation/training, as established by the activity advisor/coach. The student agrees to these conditions (*provided by activity advisor/coach*) and realizes that failure to maintain this minimum level of participation may result in suspension from the activity.

G. School Dances

School dances are an important activity which enable students to socially interact with one another. They provide a positive, enjoyable setting which fosters positive peer relations and social interaction. Students who choose to not comply with the rules and expectations for school dances will be subject to disciplinary actions as outlined in the Student handbook. The discipline will be assigned at the discretion of the building administrators.

Dance Regulations

- a. Enrolled students and one guest may attend. Students must sign up their guest in advance and that guest must sign in at the door and be accompanied by the Schroom Lake student who will be responsible for their conduct

H. Use of Bicycles, Skateboards and Rollerblades on School Property

Students may ride their bicycles to school; however, they must walk their bicycles on school sidewalks. As soon as students arrive at school, they should park and lock their bicycles in the appropriate area. The school is not responsible for stolen or damaged bicycles. Skateboards, roller skates and roller blades may also be ridden to school, but are not to be ridden on school property. If a student rides these items on school property, they will be confiscated and held until a parent comes to school and picks them up.

I. Food and Beverage During the School Day

Students are permitted to eat in the cafeteria and lunch detention rooms during scheduled breakfast and lunch periods, and at teacher direction when food or beverage is related to course content.

Students may not eat or drink at other times or in other locations between 7:45 A.M. and 3:05 P.M.

The one exception is that students may drink from a bottle of water throughout the day. Students who abuse this privilege may lose the privilege and face disciplinary consequences. Teachers may deny the use of water bottles in classes where the activity (such as science labs, technology shop and computer classes) makes the use of the water bottle unsanitary or dangerous to students or equipment.

J. Passes

Students are expected to have a pass signed by a staff member and to sign the pass log in each classroom area when moving through the building.

K. Student Automobile Use

Students that drive to school must conform to the following regulations:

1. Complete the required form with parental approval and signature;
2. Return the completed form and register the car in the main office;

5. BOCES students are required to ride the school bus to the BOCES program;
6. Cars must not be utilized during the school day.

Abuse of driving privileges may result in revocation of the privilege to park on school grounds.

L. Employment of Students

Students who are interested in working papers may pick up applications in the school office. Information the District receives about student employment opportunities is posted on a bulletin board near the main entrance. Despite the attraction of having a part-time job after school hours,

students should give careful thought to the amount of time and energy a job may demand. Students should remember that school work always takes precedence over such jobs.

M. Student Awards and Scholarships

The District maintains a list of available scholarships on the District website.

N. Fire Drills

The school district is responsible for conducting fire drills in order to instruct students and staff in exiting the school building in an emergency in the shortest time possible and without confusion and panic. Fire drills shall include instruction on fire drill exits and fire alarm boxes, as well as fire drill procedures.

When a fire alarm sounds, students and all individuals must, in a quiet and orderly fashion, immediately leave the building. If you are in class you are to follow the exit route posted in the classroom and position yourself in the appropriate location where attendance will be taken. If you are in the halls, or not with a staff member, you are to go out the nearest exit in a quick and quiet fashion and stay with the closest supervising adult. In order to hear important directions, the expectation is that there be no talking while exiting the building, while outside, or while returning to the building.

O. Emergency Closings

When it is necessary to close or delay the opening of school because of snow, ice, or other emergency, an announcement will be made via local television and radio stations.

In the event, that it becomes necessary to close school early due to snow, ice, or other emergency, an announcement will be made via local television and radio stations. Phone contact or visual contact, or an adult at the home must be made before children will be released. All other students will be kept at school or another safe location until the usual dismissal time. School closings or delays may be heard on the following radio stations and television channels 3,5,9, and 13.

XV. VISITORS TO THE SCHOOLS

The board encourages parents and other district citizens to visit the district's schools and classrooms to observe the work of students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The superintendent or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

1. Anyone who is not a staff member or student of the school is considered a visitor.

2. All visitors to the school must report to the main office upon arrival at the school. There they will be required to sign the visitor's register and will be issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the office and sign out before leaving the building.
3. Visitors attending school functions that are open to the public, such as parent-teacher organization meetings or public gatherings, are not required to register.

5. Teachers are expected not to take class time to discuss individual matters with visitors.
5. Any unauthorized person on school property will be reported to the superintendent or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
6. All visitors are expected to abide by the rules for public conduct on school property contained in this code of conduct
7. No students will be removed from school unless they are signed out in the office pursuant to school procedures.

Parents are requested to visit by appointment in order to avoid disrupting the usual school routine. Student visitors from other schools are not permitted at school unless they have a specific reason and prior approval of the Superintendent

XVI. PUBLIC CONDUCT ON SCHOOL PROPERTY

The district is committed to providing an orderly, respectful environment that is conducive to learning. To create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions. For purposes of this section of the code, "public" shall mean all persons when on school property or attending a school function including students, teachers and district personnel.
